Home Depot, Commack**

**Free Dinner provided by  
DeWALT at 7:00 PM.**

**Program begins at 7:30 PM.**

Please refer to page three of this newsletter for details.

## Secretary's Report

Our March meeting was held on March 5 at the Brush Barn in Smithtown. The meeting was opened at 7:30 by Bill Hermanek, who welcomed our guest speaker and eight new members.

Joe Pascucci advised that our membership now stands at 205. We now have \$3720.00 in the treasury

### Show and Tell

Joel Rakower told us about two items made from Ponderosa pine -- a beautiful art object and a nice bowl -- both made out of the same piece of wood. He displayed, in addition, a "seed pod" of maple similar to those used by the Indians many years ago. Joel's son, Josh (6 years old) explained how he had made

a house of pine sticks atop a cherry block of wood. He said he had made it a long time ago when he was younger. Thanks to Joel and Josh for bringing these items in for all to see!

### Monthly Raffle

1st prize: Larry Kadan -- Diamond Sharpener

2nd prize: Brian Hayward -- Variable Speed Control

3rd prize: John Driscoll -- Brass and Rosewood Square

### Questions & Answers on Woodworking by Graham Kelly

Graham will answer all questions to members on an individual basis. Questions & Answers will also be printed in the Newsletter as space permits.

### Upcoming Events

April Meeting -- to be held at Home Depot, Commack/East Northport. DeWalt will present some new products. LIWC will be the first in the nation to see these items. Be sure to send in the yellow flyer that accompanied your March Newsletter.

May Meeting -- Pat Leach and Peter Taran of the Independence Tool Co. will hold a seminar on hand saws featuring their new Dovetail Saw as demonstrated by Frank Klausz at our December '96

meeting.

June Meeting -- Annual club picnic and project contest to be held at the Brush Barn, Smithtown.

Our guest speaker for the March meeting was Peter McCusker of Turbinaire Inc., Montreal, Canada. Pete gave an enlightening presentation on HVLP Systems. Turbinaire products and a competitive model (Apollo) brought in by member Paul Cappy were compared on a very honest basis for members to consider each model's merits. Basically, two types of HVLP Systems are available, namely Compressor Powered and Turbine Powered. Pete explained that it is a matter of personal choice as to what a person requires for his own use. He offered to answer questions on an individual basis, and he may be reached at

Turbinaire, Inc.  
2049 Cohen, Montreal, QC  
Canada H4R 2N7  
1-800-866-HVLP

Adam Lopuk, representing the local distributor for Turbinaire in our area, was also present. He may be reached at

Brian's Tool Sales  
9 Moody Road  
Enfield, CT 06082  
1-203-763-2084

A nice turnout of members was on hand for a most informative meeting.

Remember -- to be a better woodworker you must do more woodworking.

- Bob Hall, Secretary
